

# WILL YOU BE READY

To Meet Recovery Act (Section 1512) Requirements?

*Recipients have until October 10, 2009 to meet the first reporting deadline of the Recovery Act.*

## PRODUCT OVERVIEW

CertiClear 1512 is a one-stop software solution for tracking the number of jobs created or retained, helping recipients meet the reporting requirements of Section 1512 of the Recovery Act.

CertiClear 1512 utilizes patent-pending technology in a hosted, secure online environment to streamline the capture of all required data. It is “shovel ready,” easy-to-integrate into existing software, and inexpensive.

**“If a project that promised to create 1,000 jobs only creates 100, the failure will be recorded.”**

*Earl E. Devaney, Chairman  
Recovery Act Transparency and Accountability Board  
As reported in The New York Times, March 10, 2009*

## WHY CERTICLEAR 1512?

Section 1512 of the Recovery Act (and subsequent guidance) subjects agencies and recipients of Recovery Act funds to *extensive quarterly reporting requirements retroactive to March 31, 2009* including detailed and cumulative information on the jobs created and retained.

CertiClear 1512 assures real people in real jobs are being counted accurately, preventing inaccurate “guesstimates” by recipients, or the use of “phantom” employees by fraudulent businesses.

The Software as a Service (SaaS) technology will help to:

- **Provide consistent data capture** across all levels of recipients;
- **Report data on a real-time basis** allowing any concerns to be managed before they become a headline;
- **Support submission of quarterly data** to state agencies and/or Recovery.gov; and
- **Stay within budget!**

ENTER

“We cannot overstate the importance of this effort. We are asking the American people to trust their government with an unprecedented level of funding to address the economic emergency. In return, we must prove to them that their dollars are being invested in initiatives and strategies that make a difference in their communities and across the country. Following through on our commitments for accountability and openness will create a foundation upon which we can build as we continue to tackle the economic crisis and the many other challenges facing our nation.”

*Memorandum to Head of Departments and Agencies, February 9, 2009*

## FUNCTIONALITY

Efficient data collection is achieved through standardized Web-based interfaces by pushing a data collection requirement from the top down through the hierarchy of recipients (down through as many tiers as you wish). Reporting and analytic functions are provided for government agencies and recipients to monitor progress, activity and compliance in real-time. On a quarterly basis, information collected is summarized for agencies to be compliant with the Recovery Act reporting requirements without estimating and guesswork.

## TECHNICAL SPECIFICATIONS

- 100% standards compliant Web-based interface
- Data import and export using Microsoft Excel files
- XML Web service data interfaces available
- Private data is securely stored using AES 256-bit encryption
- Only strong encryption of SSL connections are allowed (128 & 256 bit)

## PRICING STRUCTURE

Choose the option that works best for your organization:

- **CertiClear 1512 Software as a Service (SaaS):** Our full-featured version as low as \$90 per user per month pricing (with two user minimum).
- **CertiClear 1512 Custom:** Installed, enterprise version, customized to meet your needs. *Call for pricing.*
- **IT Reseller opportunities:** Partnerships available. Please call.
